Catastrophic Coverage Stage: You enter the Catastrophic Coverage Stage when you reach the \$2,100 annual out-of-pocket limit and you will remain in this stage for the rest of the plan year.

During this payment stage, you pay nothing for your covered Part D drugs. For excluded drugs covered under our Non-Part D Supplemental Benefit, the benefit information is below.

Step Therapy

Your plan includes step therapy. This requirement encourages you to try less costly but just as effective drugs before our plan covers another drug. For example, if Drug A and Drug B treat the same medical condition, our plan may require you to try Drug A first. If Drug A doesn't work for you, the plan will then cover Drug B. Our plan's step therapy criteria can be obtained by calling Member Services at [1-866-539-6750](tel:1-866-539-6750) (TTY users call [711](tel:711)) or on our website ([Oxy.AetnaMedicare.com](https://www.Oxy.AetnaMedicare.com)) with your formulary information.

This Plan Uses the Comprehensive Plus Formulary:

Your plan uses the Comprehensive Plus formulary, which means you have coverage for every drug identified by Medicare as a Part D drug, as long as the drug is medically necessary, and the plan rules are followed. Non-preferred copay levels apply to some drugs on the Drug List. Review the *Aetna Medicare 2026 Group Formulary (List of Covered Drugs)* for more information.

Non-Part D Supplemental Benefit

Your former employer/union/trust has purchased additional coverage for some prescription drugs not normally covered in a Medicare prescription drug plan, including the following:

- Drugs when used for the relief of cough or cold symptoms
- Drugs when used to promote fertility
- Drugs when used for cosmetic purposes or to promote hair growth
- Drugs when used for weight loss
- Prescription vitamin and mineral products (except prenatal vitamins and fluoride preparations)
- Drugs when used for the treatment of erectile dysfunction
- Other miscellaneous non-Part D drugs not otherwise described above

The cost share for these drugs throughout all drug payment stages is listed in the Initial Coverage Stage table above. See Tier 1 for the generic cost share amount and Tier 2 for the brand cost share amount.

The amount you pay when you fill a prescription for these drugs does not count towards qualifying you for catastrophic coverage. In addition, if you are receiving "Extra Help" from Medicare to pay for your prescriptions, the "Extra Help" will not pay for these drugs.

To find the drugs that are covered under this supplemental benefit, go online to:

[AetnaMedicare.com/SupplementalBenefitMAPD](https://www.AetnaMedicare.com/SupplementalBenefitMAPD). This document will also show limitations, such as quantity limits and prior authorization requirements. For more information, call Member Services.
